The Professional Development of Toby Rice

After completing my Associate in Arts Degree at Broome Community College, I transferred to Temple University in the fall of 2008. I am working towards my Bachelor of Science Degree studying Sport and Recreation Management, with a General Business Studies Minor. I anticipate graduating in August 2010.

I have an interest in web development and graphic media design. Computer Design has always been something that I have practiced on free time. After studying the sport industry and what it has to offer, I am pursuing the area of Sport Marketing. This concentration would let me utilize my skills and abilities in graphic design.

My experience in the sport industry began in youth recreation working for the YMCA. I worked for a number of years refereeing, coaching, and counseling roller hockey. I worked with youth as young as five, and all the way up through an adult division.

Temple University has provided me with great opportunities to get involved with the sport industry even more. I have volunteered with the Philadelphia Eagles, ARMY/NAVY Game, and other unique events. I completed an internship with the Philadelphia Flyers and had the opportunity to create my own charity event. On top of the Sport and Recreation related coursework, I have had the chance to attend a countless numbers of speakers from the industry. My strong academic background makes me well prepared to work in the sport and recreation field.

Philadelphia Flyers Provide Fun Learning Experience

I completed my Junior Internship with the Philadelphia Flyers and the Comcast-Spectacor Foundation. During the 2009 summer, I worked on stick auctions, the license plate program, the annual Charity Golf Tournament, and the Flyer's Wives Carnival. Along with

working on all of these projects, I also got the experience of working in a large company, where all the departments work closely together. I met a lot of unique people throughout my time at the Comcast-Spectacor Foundation. I even had the opportunity to work a day with the Philadelphia 76ers' Summer Hoops Tour.
